BIOGRAPHY

The 351's are an old school punk trio from Quebec City, Canada, formed in September 2023. Their sound is raw, direct and hard-hitting — rooted in 70s punk (The Clash, Ramones) with a contemporary edge, recorded with deliberately unpolished, analog production.

The band's name comes from the Peterbilt 351, the truck featured in Steven Spielberg's "Duel." Guitarist/vocalist Kev Berrigan has been a trucker for 30 years: "the 351... is the most beautiful truck ever made."

Kev formed the group after leaving his previous band The Rudesters, recognizing a strong musical connection with Dom and Tin. The band is heading back into the studio in fall 2026 for a third EP.
